

THE ONIKE FRAMEWORK™

International Collaboration Prospectus

Advancing Strategic Growth, Operational Excellence, Sustainability, Ethical Finance and Human Development in Islamic Institutions

PAGE 1 · WHO WE ARE

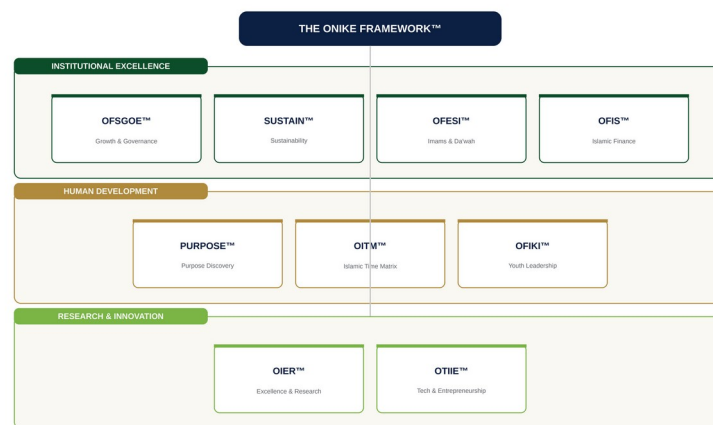

Transforming Islamic Institutions Through Research, Innovation and Excellence

The Onike Framework™ is a research-driven ecosystem of integrated frameworks developed to strengthen Islamic institutions through strategic growth, governance, operational excellence, sustainability, ethical finance, leadership development, artificial intelligence, and Maqāṣid al-Sharī'ah.

Designed for universities, Islamic financial institutions, NGOs, waqf organisations, zakat agencies, educational institutions, humanitarian organisations and governments, the framework combines contemporary management science with Islamic principles to provide practical assessment, benchmarking and continuous improvement tools.

Unlike conventional excellence models that address isolated organisational functions, the Onike Framework™ provides an integrated ecosystem covering institutions, leaders and individuals.

The Framework Ecosystem

Distinctive Features

- ✓ Evidence-based methodologies
- ✓ Digital assessment platform
- ✓ Automated reporting
- ✓ International benchmarking
- ✓ Multilingual platform
- ✓ AI-assisted diagnostics and coaching
- ✓ Institutional maturity assessment
- ✓ Professional certification
- ✓ Research-ready architecture

Current Development Status

From advanced conceptual frameworks with live pilot data to emerging research streams, each model in the ecosystem progresses through a disciplined research-to-deployment pathway.

OFSGOE™

STATUS

Advanced conceptual framework supported by multidisciplinary research, with pilot exercises conducted on four Islamic institutions.

OFESI™

STATUS

Online assessment platform with automated scoring, AI-assisted recommendations and digital maturity reports — piloted with NASFAT Imams.

SUSTAIN™

STATUS

Institutional and individual sustainability assessment framework — currently in research and implementation phase.

PURPOSE™ (OPDF)

STATUS

Purpose Discovery Framework supporting leadership readiness, career alignment and personal development — prototype and research development.

OITM™

STATUS

Islamic Time Matrix integrating productivity diagnostics, time stewardship and AI-assisted coaching — advanced conceptual development.

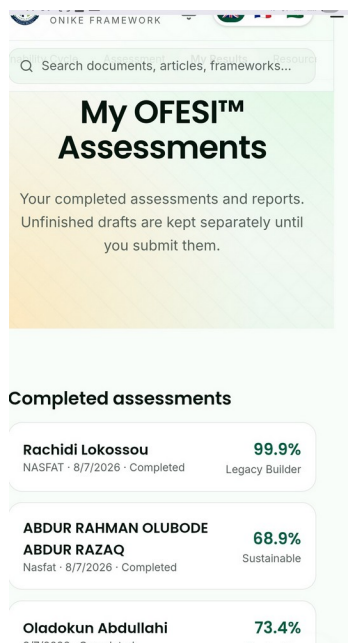

OFIKI™, OIER™, OTIE™, OFIS™

STATUS

Knowledge integration for youth, research excellence, innovation and Islamic finance sustainability — conceptual and emerging development.

The Digital Assessment Ecosystem

Live screens from the onikeframework.org digital platform, where institutions complete assessments, receive AI-assisted maturity scores, and verify credentials through a public certification registry.

OFESI™ Digital Assessment Portal

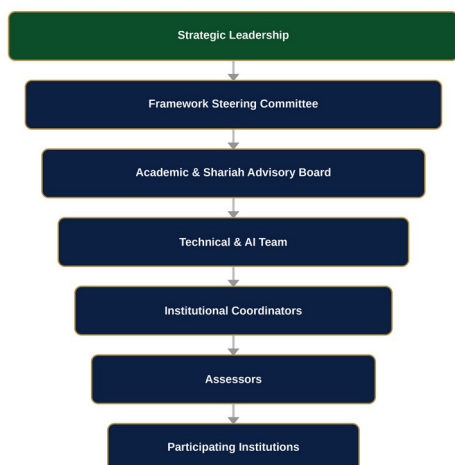

Digital Certification & Verification Registry

From Engagement to Impact

A nine-stage pathway carries every partner institution from first engagement to measurable, certified impact.

Governance Model

Pilot Opportunities

- ✓ Institutional assessments
- ✓ Executive leadership programmes
- ✓ AI-assisted coaching
- ✓ Organisational benchmarking
- ✓ Framework validation
- ✓ Cross-country comparative studies
- ✓ Capacity building & certification
- ✓ Joint conferences & co-authored publications

Early Case Studies

NASFAT

Pilot implementation of OFESI™ involving Imams and Missioners to assess effectiveness and sustainability across a global network of 350+ locations.

Four Islamic Institutions

OFSGOE™ pilot exercises conducted to evaluate strategic growth, governance and operational excellence.

Ongoing Research Development

Research expansion continues through postgraduate studies, conference presentations and peer-reviewed publications.

Ways to Partner With Us

Research

- Joint research
- Co-authored publications
- Research grants
- Conference collaborations

Pilot Implementation

- Institution-wide assessment using one or more Onike Framework™ models

Capacity Building

- Strategic growth & governance
- Sustainability & leadership
- Operational excellence
- Ethical finance & AI readiness

Technology Collaboration

- AI-assisted diagnostics
- Benchmarking dashboards
- Digital reporting
- Multilingual assessments

International Benchmarking

- Comparative assessment of Islamic institutions using standardised maturity models

Policy & Advisory

- Institutional standards
- Governance frameworks
- Sustainability indicators
- Policy papers

Why Collaborate?

A partnership with the Onike Framework™ enables organisations to:

- ✓ Strengthen institutional effectiveness
- ✓ Enhance governance and accountability
- ✓ Improve sustainability and resilience
- ✓ Advance Maqāṣid al-Sharī'ah implementation
- ✓ Promote ethical finance and operational excellence
- ✓ Build AI-enabled institutional capability
- ✓ Benchmark against international best practices
- ✓ Generate evidence-based research and measurable impact

Vision Statement

Transforming Islamic Institutions through Strategy, Sustainability, Operational Excellence, Ethical Finance, Innovation and Purpose-Driven Leadership.
